COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrappers and attest its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formulæ, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great, blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet *does cure* all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" *in time* and it is not likely to disappoint you if only you give it a *thorough* and *fair* trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Young Women Attacked by Youths.

With Elmhurst, the scene of the brutal murder of 15 year-old Amelia Staffeldt, only a short distance away, two young women from New York were attacked by 12 youths in Newtown, Long Island, early yesterday, and one of them is said to be in a critical condition. Seven young men are under arrest.

The victims of the attack, Mary Jensky, 24 years old, and Fannie Madogis, 19 years old, had been visiting friends in Newtown, which is separated from Elmhurst by the Long Island Railroad tracks.

They were on their way to the railroad station, and were walking under the shade trees of one of the county roads, when four youths leaped out of the bushes and clapped their hands over the mouths of the girls.

Blows were showered upon them with the apparent intention of rendering them unconscious, but in this the assailants were only partially successful. The younger of the girls was stunned and finally overpowered, but the elder fought with all the strength she could command and succeeded in baffling her assailants.

Finding they could not overcome her, the men allowed her to escape, and she aroused the neighborhood with her screams. Her companion was found semi-conscious and almost crazed with horror of the attack upon her.

The young women said latter that before they had a chance to resist they were seized and thrown to the ground. Miss Jensky was completely overpowered and repeatedly attacked. The other girl made such a desperate resistance that her assailants did not accomplish their purpose.

The Doctor Away from Home when Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Dirrahoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by W. F. Creighton & Co. and Gibson & Timberman.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at E. S. Leadbeater & Son's drug store.

Zionist Bank.

At the next session of the legislature of the State of New York the Zionists will have a bill presented authorizing the establishment of a bank in New York city, which will be unique in that it will be closed on Saturdays and all Jewish holidays, and the profits of which will be devoted to the development of Palestine. A committee headed by Nathan Prensky, a merchant of Brooklyn; merchant of Brooklyn; Henry Jackson, of Pittsburg, and Dr. B. L. Gordon, of Philadelphia, reported at yesterday's session of the Zionists' Convention in Tannersville, N. Y., that stock to the amount of $50,000 had already been subscribed for, with promises of a similar sum as soon as the bill authorizing its establishment becomes a law.

One of the features of this bank will be a steamship brokerage department, which will serve to protect the poor and ignorant Jews of the East Side of New York city from the frauds practiced upon them by irresponsible men. As soon as the bank in New Nork city has been established branches will be opened in Boston, Philadelphia, Baltimore, Pittsburg, Cleveland, Chicago and Cincinnati and in other cities where there are large Jewish settlements.

It is anticipated that the profits of this enterprise will be so large that many projects for developments of the industrial and agricultural possibilities of Palestine which are now in abeyance will be successfully carried out and the way opened for the settling there of an enormous Jewish peasant population.

The Bride Hesitated.

Just as she was about to step into a cab Sunday to be driven to St. Hedwig's Polish Catholic Church at Chester, Pa., where she was to be made the wife of Joseph Stenshiski, Annie Ary balked, declaring that she had changed her mind and did not want to marry Joseph or anyone else.

But everything was ready for the celebration and the guests had assembled for the expected feast, which must be called off if there was no wedding. Annie continued to demur, however, and kept Joseph waiting at the church until four of her stalwart relatives gathered her up bodily, placed her in the cab and ordered the driver to hurry to the church, half a dozen squares away.

Without giving the astonished bride-elect time to make further objections she was escorted to the altar, where the priest and bridegroom were waiting, and the vows were said.

Then the newly wedded pair were driven to their home, where the fun of celebrating the happy event began and was continued until daylight yesterday morning.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

TUESDAY EVENING, JULY 2, 1907.

WHILE THE Christian world is collecting thousands of dollars yearly to send the Gospel to the heathen world, they are opposed by the advocates of science so called who are spending money for the purpose of invading savage haunts and searching for what they call the "missing link." Should they find it, they imagine they will have proven to the world that man is the product of evolution and but a degree above the simian creation. Another expedition for the purpose of chasing this rainbow will start from Batavia, Java, shortly. Dr. Max Moskowski, a distinguished German scientist, arrived there yesterday to head the expedition which is financed by the Dutch government and the Prussian Academy of Science jointly. Dr. Moskowski will continue the researches of the Dutch scientist and traveler Dubois, who claimed to have unearthed the remains of a strange animal, which is said to be an ape. Thus while some are endeavoring as did Paul on Mars Hill to show that man is the offspring of the deity, others would make him of the genus of the monkey.

SERIOUS disorder marked the close of the strike of street cleaners in New York. The strike managers admitted that they feared public opinion would be against them should they continue a struggle against the city. After terms had been closed between Mayor McClellan and strike leaders last night, however, a terrific attack was made on a street cleaning wagon, under an escort of police, which was gathering up refuse. A bomb hurled from the roof of a tenement started the fight. Bursting in the middle of the group of blue coat guards, the missle brought Sergeant Duggan to the ground senseless and with a broken leg. From that time until almost dawn small bombs, bottles and bricks were rained on every policeman who appeared in Harlem. Four patrolmen received injuries which necessitated their removal to hospitals.

DESPITE the orders of the Mayor and Chief of Police the discharge of firecrackers and other explosives continues in the city limits and apparently no effort is being made to arrest the violators of the law. It should be remembered that any damage done to property can be recovered from those or the parents of those, who cause such damage by the discharge of fireworks. A single arrest and the prompt punishment by fine or otherwise of the violators of the law would have a most salutary effect. It is bad enough for ones nerves to be kept on the rack on the Fourth of July (which, however should not be tolerated) but when the firing begins several days beforehand it becomes an absolute nuisance.

JOHN D. ROCKEFELLER is said to be dodging the authorities. He is loth to appear as a witness in the government's suit against the Standard Oil Company. A dispatch from Chicago says little information of what the government intends to do can be obtained. It is insisted, however, that the government is prepared for any emergency, and will compel Mr. Rockefeller to appear. Further defiance of the federal authorities on the part of the oil king will put the government in the position of proving its ability to serve the summons. If it is necessary to compel the attendance of Mr. Rockefeller in court, the district attorney of Chicago is empowered to call on the army and the navy and the secret service.

AMONG the guests at Sagamore Hill Thursday was the Chinese minister, Sir Chentung Liang Cheng, who came for the express purpose of bidding farewell before returning home, and to bear a message from the Emperor of China expressing gratitude for the President's remission of a large part of the big indemnity claimed on account of the Boxer rebellion. China evidently regards this act as an expression of the friendship of the United States which friendship she had every right to doubt because of the ill treatment of the Chinese in this country and because of the unfair immigration laws directed at the Chinese.

THE steel rail pool of this country is in an international combination with the steel rail pools of Europe and it has been announced that a minimum price has been fixed for Europe, which the American pool is to keep out of, and in consideration of this the minimum for South America is to be fixed at a higher point to suit the American makers. That higher point will undoubtedly be lower than the price in the United States, but the American pool can meet the foreign pools on even terms and extort from them a division of the world's markets so that there shall be no competition anywhere.

ON THE last Fourth of July one hundred and fifty-eight people lost their lives in New York in celebrating the day. Of this number eighty-nine died from lockjaw. These grim statistics should be heeded, and young and old alike learn to celebrate the anniversary of the nation's birth minus the use of dangerous and ear-splitting explosives.

A DISPATCH from Council Bluffs, Iowa, says that the chief of police in that town has solved the premature firecracker problem by appointing an army of youngsters special patrolmen, empowered to arrest all youths caught celebrating the Fourth on the second and third. Here is a pointer for Chief Goods of the Alexandria police.

THE garden of Eden has been located by theologians at the North Pole, in the moon and in the sun, and now a minister in Washington has become convinced that hades or sheol is situated in the latter orb. The minister says the infernal region is a scientific necessity, demanded by the laws of nature.

From Washington

[Correspondende of the Alexandria Gazette.]

Washington, July 2.

Carrying out a general policy which was planned over a year ago the Navy Department is preparing to increase the strength of the American fleet in the Pacific. In the course of the next year or two, it is probable that a large part of the magnificent fleet of sixteen battleships, recently gathered together in Hampton Roads, under the command of Rear Admiral Evans, will be transferred to Pacific waters. In making this move, it is stated, there is no menace intended to anybody and it is pointed out that no country would be justified in feeling apprehensions on the subject, unless she, herself, had sinister designs against the United States. The movement cannot begin until next year, as far as the battleships are concerned, although, as announced yesterday, the two big armored cruisers, the Washington and Tennessee, are under orders to proceed to the Pacific coast this summer. Coming so closely on the heels of recent reports of friction between the United States and Japan, the announcement of the naval plans has naturally been associated with the possibility of trouble with that country. It would be idle to deny, of course, that in formulating the plans the recent rise of Japan to the position of a first class power in the far East was taken into consideration. But the move, according to the highest authority, is more directed against Japan than against any other of the powers whose interest are big in the Pacific. The interests of the United States in that ocean have increased enormously since the Spanish-American war. For years military experts have been pointing out the necessity for a defection of those interests, but Congress has persistently refused to supply funds with which to supply the Philippines. There is only one battleship now in active service on the Pacific coast. That is the Nebraska, which is just going into commission. The Oregon and Wisconsin, which are also on the coast, are undergoing extensive repairs. There will be, after the Washington and Tennessee arrive in the fall two divisions of swift armored cruisers in Pacific waters, but it is felt to be desirable that there should also be a strong guard of battleships to support them in case of necessity. Gradually they will be sent. They will go, one or two at a time. There will be no setting sail of a vast armament. But in the course of the next few years, the Pacific fleet will be built up, until it can afford proper protection to the interests of the United States in that part of the world. There is no war scare in Washington. The United States is on friendly terms with all the world, including the government of Japan.

Once for all time the Interstate Commerce Commission has settled down in a final attempt to solve some of the Harriman problems. Special Counsel Kellogg is today holding a conference with the members of the commission having come on from St. Paul for this purpose. It is believed that an announcement will be made in the next few hours as to the final determinations of the commission in regard to bringing of the the suit in the federal courts of southern New York to compel Harriman to answer contain question regarding his railroad transactions. It is known that there is a tendency among one or two members of the commission, at least, to forego this suit, if it is decided that there is not sufficient evidence, without that which might be obtained forcibly to prosecute Harriman.

Secretary of War Taft has decided to practically close up the offices of the Panama canal commission in this city. It is announced today that Secretary Jos. Bucklin Bishop, appointed originally at a salary of $10,000 a year to act as historian and press agent of the commission, and who has been in charge of the Washington offices since the resignation of Shonts will remove to the isthmus as soon as he can make the necessary arrangements, leaving here merely a fraction of the expensive organization which has been maintained heretofore. The change, while increasing efficiency, is expected to save $100,000 a year.

The bureau of statistics of the Agricultural Department estimates the average condition of cotton on June 25, at 72.0 per cent. as compared with 70.5 on May 25, 1907; 83.3 on June 26, 1906; 77.0 at the corresponding date in 1905 and a ten year average of 83.2.

Sir Cheng-Tung Liang Chen, the Chinese Minister here, who has just been transferred to an important position in the Chinese Foreign Office, called at the State Department today to take his leave of the officials, and to introduce Mr. Chow Tszchi, the first secretary of the legation, who will act as charge d'affairs until the arrival of the new Minister. Sir Cheng-Tung leaves here tomorrow.

Will Call Extra Session.

Albany, N. Y., July 2.—Before leaving for James own tonight Governor Hughes expects to issue a call for the legislature to convene in special session on Monday, July 8, for the reapportionment of the Senate districts. It was intended to issue the call at noon today, but owing to the absence from the city of the clerks of the Senate and Assembly or their representatives the governor decided to defer issuing the call until it can be properly served on them which will probably be some time today.

A refreshing rain began to fall about eleven o'clock last night and continued about an hour. The rain was accompanied by considerable thunder and lightning.

It is stated that John D. Rockefeller has decided to surrender himself to Judge Landis at Chicago to answer charges brought against him and the Standard Oil Company.

The strike of the garbage collectors in New York is over, and the fears of a serious epidemic as the result of the conditions which have existed for the past week are at rest. A committee representing the striking drivers conferred with Mayor McClellan yesterday. He promised that if they would return to work he would take up their grievances. Later the committee announced that it had decided to send all the men back to work, trusting to the mayor's promise. It was also announced that the men would work overtime until the accumulation of garbage in the streets had been removed. It is expected that most of the strikers will return to work today.

To Send Cruisers to the Pacific.

Following closely on the news that the armored cruisers Tennessee and Washington are to be sent to the Pacific, information has leaked out of the Navy Department that the entire battleship fleet, 16 strong, will eventually be sent there. It will not be hurried, but will be on its way, either via the Horn or Suez, in 12 or 15 months. President Roosevelt has been going over the situation with Secretary Metcalf, and the latter has gone over it in turn with the highest naval officers.

The plans for the movement have been formulated by the naval officers, who have been wrestling with the problem of disposition of the navy. The President has approved the plans. Not only is there to be a powerful armored cruiser squadron on the Pacific, but a battleship force that need fear no enemy in the world.

While it may be said that this move is aimed at Japan, the attitude of the government will be that it is aimed at no one in particular, but at the general protection of American interests and at the preservation of American influence toward conserving Chinese integrity.

It is declared on high authority that the whole naval policy is to be changed, from keeping a great force in the Atlantic to the building up of American strength in the Pacific. Neither Germany nor any European power is longer a menace in the belief of naval officers. At the same time the reserve force in Atlantic waters will be formidable.

Song Writer Remarries.

On the day after his wife, Miss Louise Henry, of Winchester, a well-known vaudeville actress, had secured a divorce from him, Egbert Van Alstyne, the song writer, was married in Kenosha, Wis. Van Alstyne is the author of "In the Shade of the Old Apple Tree," "Navajo," "Back, Back to Baltimore," and other songs. He was married to Miss Henry on July 21, 1904. On Thursday, June 27, last, Miss Henry obtained a divorce from him in the Winchester courts, the suit having been based on statutory grounds. The decree was signed by Judge Atkinson, and the following day Van Alstyne, and Miss Mable Carolyn Church, of Chicago, went to Kenosha, where they were married by Rev. W. W. Stevens of the Methodist Church. This is Van Alstyne's third marriage, he having been married and divorced before he met Miss Henry. Soon after he had written the song "In the Shade of the Old Apple Tree," Val Alstyne went to Winchester and bought a fine farm near town, which contains an old apple orchard. This farm is now in the possession of Miss Henry, who is at present filling vaudeville engagements in Ohio.

Virginia Rate Case.

The case of the Southern and other railroads operating in Virginia against the Corporation Commission of this State was heard in Asheville, N. C., yesterday before Judge Pritchard in the United States Circuit Court.

As in the case of the Southern in North Carolina, that road and five others seek to enjoin the Virginia commission from enforcing the 2-cent rate law recently passed by the Virginia Legislature. Attorney-General Anderson, of Virginia, held that the court was without jurisdiction.

The court yesterday afternoon issued an order that the question of jurisdiction only should be argued, and if the court shall hold that it had jurisdiction it need not go into the question of the merits, but may grant the preliminary injunction and refer the cause to a master.

There are distinct provisions that the commission shall not be prejudiced by the agreement or held to waive any rights save that the granting of an injunction without further affidavits will be treated as an error by the court.

New York Stock Market.

New York, July 2.—The heavy profit-taking sales yesterday were reflected this morning in a weaker tone and prices in the first hour declined from fractions up to two points from yesterday's closing figures. There was a fair recovery to prices after the first hour and at midday the market was firmer and fractionally higher all around from the lowest level of the early trading, but still a little below yesterday's closing.

Virginia News.

A marriage license was issued in Washington yesterday to George W. Duncan, of Riverton and Hattie A. Capp.

E. H. Harriman is said to have issued orders that all the details of accidents on his lines are to be given to the public.

The engagement is announced of Mrs. Mary Scott Johns, of Warrenton, to Mr. John B. Minor, of Richmond. The wedding will take place shortly and Mr. and Mrs. Minor will make their home in Richmond.

A special grand jury was convened in the Husting Court of Richmond yesterday for the purpose of investigating the alleged operations of the ice trust in that city. The case was postponed until a later day in the month owing to the fact that much of the evidence is not yet ready.

Maj. Holmes Conrad is at his home in Winchester recuperating from the effects of a severe fall received several days ago. While Maj. Conrad was on a long cross country walk, and was going down a steep hill, five miles from Winchester, he stumbled over a piece of barbed wire stretched along the ground, falling heavily. His right arm was dislocated at the shoulder, and he was cut and bruised. He was brought to his home by Rev. J. H. Lacy, who happened to be passing. Physicians reset the arm.

Supposed Murder.

Tappahannock and vicinity have been deeply stirred during the past three days by the tragic death of Thomas McDaniel, one of the most influential farmers of that section. As stated yesterday, Mr. McDaniel went to an adjoining farm, owned by his wife. There he found his stepson, M. Brockenborough Wright, with two others men, in the tenant house on the place, in an intoxicated condition. Mr. McDaniel reprimanded the tenant and told the other men that they must leave, as they were interfering with his tenant in his work. The two other men left the premises, after apologizing to Mr. McDaniel, who went toward the field, but, retracing his steps, he entered the house.

A few moments later the report of a gun was heard. The two men returned to the house, where they found the body of Mr. McDaniel lying on the floor. Beside the body was a shotgun, which had been discharged. Wright was sitting in a corner of the room on a box. In the corner behind him was another shotgun. Wright testified before the coroner's jury that the gun which killed Mr. McDaniel was leaning against the door and was knocked down accidentally by Mr. McDaniel. Dr. W. B. Robinson, who performed an autopsy on the body, contradicts the testimony of Wright from a medical standpoint.

The verdict of the coroner's jury, rendered yesterday, was to the effect that the deceased came to his death from a gunshot wound inflicted by M. Brockenborough Wright. Wright was arrested and given a hearing before Magistrate R. J. Duke, who sent his case to the grand jury. Mr. McDaniel was 46 years old, and is survived by a wife and several children. Wright is of a first-class family. At the death of his father he inherited a considerable sum of money.

Farmer Killed by a Negro.

In the presence of his wife and daughter, Henry C. Motley, a prominent farmer of Franklin county, was shot to death Saturday afternoon by George Dudley, a young negro farm hand, about twenty years of age. Dudley was arrested yesterday in Henry county, and is now in jail at Martinsville.

Henry Adams, a young white man, with whose pistol the negro is alleged to have done the shooting, and by whom Dudley was employed, is wanted on the charge of being an accessory to the killing.

The shooting occurred on Motley's large plantation, near Dickensons, and grew out of Motley ordering the negro not to pass through his farm. Saturday, Dudley started to drive through the place and was intercepted by Motley, who, it is alleged, went to his house and came back with a shotgun. Henry Adams was also in the wagon with Dudley. Motley was accompanied, upon his return to the scene, by his wife and young daughter. The quarrel was renewed and Dudley, drawing his pistol, fired four times at Motley, who fell dead, with a bullet in his head and stomach. He was also shot in the leg. Dudley and Adams both fled after the shooting.

Dudley was captured at Chatmoss. He offered no resistance and will probably plead self-defense. He declares that the farmer was attempting to shoot him, and that his daughter was in the act of hitting him with an axe when he opened fire.

Motley was about fifty years of age, and highly esteemed. His friends were enraged when they heard of the killing and the negro would probably have been lynched if he had been found by the posse which scoured Franklin county Saturday night and Sunday.

Potteries Close Down.

As a result of the belief that the Georgia State legislature, both branches of which are controlled by prohibitionists, will at the present session pass a prohibition measure, two of the largest potteries in the State, whose product was confined almost exclusively to jugs for the liquor trade, have closed down their establishments. Since the legislature convened orders for more than 35,000 jugs have been cancelled, and a wood working plant having orders for bar fixtures worth $20,000 have received a telegram cancelling it.

Today's Telegraphic News.

Secretary Cortelyou at the Exposition.

Jamestown Exposition, Va., July 2.—Hon. George B. Cortelyou, Secretary of the Treasury, made the principal address here today at the dedication of the great column of coal, 123½ feet high, erected by the State of West Virginia. Governor Dawson, the State's representative in the national Senate and House, and many other public officials attended the celebration.

After speaking in terms of highest praise of the progress made by West Virginia along lines of industry and commerce, the secretary, touching upon national topics, said:

'Our people continue prosperous. We, of course, have our occasional outbreaks, and quite recently we have had some rather sharp reminders that wrongdoing and improvidence and inflation have an inevitable result—disaster in greater or less degree. The adjustment of values in certain lines of trade, whether of securities or other holdings, will prove a blessing if restricted within reasonable bounds, but it must be understood that the American people are alive to their rights and privileges, and however much opinions may differ as to policies and methods in securing honest government, clean politics and straightforward business, this much is certain—the people will have those things, and they will make short shift of any man in public life whose career points in the wrong direction. While there are some disquieting features in the business world, the outlook is growing steadily brighter, and if we but keep our heads, and approach our state and national problems with courage and common sense, we will be sure to win."

Mysterious Deaths.

Attleboro, Mass., July 2.—Unless a train of cars can sever a man's head as cleanly as a knife there is small doubt that a decapitated body found on the New York, New Haven and Hartford railroad tracks here reveal a carefully planned murder. The body was found Saturday night, but it was not until today when its identification as that of Detlef Hinz, of Providence, was made positively that the police began the investigation which may land in jail one or two murderers. The medical examiners today declared that the cut which took off Hinz's head could not possibly have been made by car wheels. Moreover they have found that the body shows no signs of other wounds—not even a broken bone. Today the police are searching for a boy who notified the switching operator here that he had stumbled over a dead body on the track. The boy refused to give his name and disappeared. The description of the body tallies with that of a man who left the Providence train with a boy, the man stumbling and the boy assisting his steps.

New York, July 2.—Gremeki Chiaco, formerly a saloon keeper on Front street, Jamaica, L. I. and now a bartender in Manhattan, was found dead in his room on the fourth floor of 90 Elizabeth street with a bullet wound in his chest. Joseph Coma, 154 Mott street, who had called to see Chiaco was held by the police.

The Haywood Trial.

Boise, Idaho, July 2.—Secretary W. H. Haywood, of the Western Federation of Miners, on trial, charged with complicity in the murder of former Governor Frank Steunenberg, of Idaho, is hardly a figure in the hearing of his own case just now.

It was expected that he would take the stand in his own behalf yesterday, and today there is little doubt that he will be a witness before court adjourns. In the meantime, however, the struggle between the prosecution and defense has practically narrowed to a discussion between the miners' faction and the mine owners.

While much of this testimony has been highly sensational, the keenest interest centers about Haywood, and the court is thronged today on the supposition that he will soon be called to the stand.

It appears certain that the prosecution in the trial of Wm. D. Haywood will spring a sensation before the case is over by ordering the arrest upon charges of perjury of a number of witnesses who have testified for the defense.

It is rumored that the Idado authorities are preparing for the arrest of a man for complicity in the destruction of the Bunker Hill mine properties at Wardner.

Conditions in Guatemala.

Mexico City, July 2.—Absolute chaos is reported to reign in Guatemala as a result of the condemnation to death of scores of men, some of them prominent business men, on charges of being implicated in the recent attempt to assassinate President Cebrera and the drafting of hundreds of men in all lines of business to increase the army.

Panic prevails throughout the country and with the threat of war being declared against Guatemala by Nicragua the situation has been rendered desparate. Fully 160 arrests were made at one time. Then the prisoners were herded into groups of 20 and tied together. Complicity in the plot against Cebrera is the charge against the men. Scores have been found guilty and sentenced to death. Fearing popular uprisings against these edicts, Cebrera has taken this measure to increase the army. At the same time levies have been made on country districts for provisions they cannot supply. Protests from diplomatic representatives have been made but have been ignored by Cebrera.

Horse Thieves Barbarously Punished.

St. Petersburg, July 2.—The story of the barbarous punishment meted out to a gang of horse thieves by peasants at Choinoiatin, government of Volhnia, has just reached here. Fifteen horse thieves who had terrorized the neighborhood for months fell into the hands of peasants. For a day and night the torture continued until they were rescued. There was not a man in the gang who had not suffered terribly. One was dead and the others were so badly crippled and mutilated they were helpless. Their arms and legs had been broken, their ribs crushed in, hands torn off, and in some instances eyes gouged out and arse torn off.

The Hague Tribunal.

The Hague, July 2.—From information furnished the Publishers' today from a well-informed source the Drago Doctrine promises to prove one of the stumbling blocks in the present conference. Stongly opposed views are known to be held by several countries on the subject. Mexico, it is asserted, is even ready to demand that the whole subject shall be thrown out if the discussion promises to take an objectionable turn.

In the last few days it has developed delegates from the South American countries have been trying to win support for the new vision of the Drago Doctrine presented by Argentia providing that disputes over debts must first be submitted to the tribunals of the debtor country, giving the debtors an appeal to the international court before military force can be employed in collecting debts.

The United States is opposing this idea, preferring its own proposal that arbitration of claims shall be made obligatory before there is a resort to force.

Mexico is violently opposed to discussing the Drago doctrine at all and considers the Agentine propositions especially obnoxious to her country.

England, France and Germany will oppose the Argentia doctrine, believing it will only prolong disputes over claims unnecessarily.

Automobile Race.

Dieppe, France, July 2.—Nazarro driving a Fiat car, won the Grand Prix automobile race today. His official time for the distance was 6 hours, 46 minutes and 33 seconds.

Swiez followed the Italian home in his Renault, taking second place, in 6:53.10. Lancia in a Fiat was third.

Walter Christie, the American driver, in his Christie car did not take a place, owing to accidents which interfered with his speed. Elliot F. Shepard and Heath, Americans, driving foreign cars, were likewise unplaced.

The race was run over a triangular course, the angles being at Dippe, Eu and Londieners, a distance of about 45 miles.

Ten circuits were required, making a total of practically 450 miles.

Accidents began almost from the start. Richez, in a French Renault, upset on the first round, and Bablot, in a French Brazier, collided with Richiez's car. Both were able to start again, however. The whole race was a repetition of accidents which put many of the racers with the best chances out before it was half run.

Will Demur to Indictments.

New York, July 2.—George Scrugham, of Cincinnati manager of the International Policyholders' Committee, and Charles Stirrup, his assistant, indicted last week for forgery and conspiracy on charges growing out of the election of directors in the New York Life Insurance Company were arraigned before Judge O'Sullivan in the court of general session today to plead.

John B. Stanchfield, representing the defendants, served notice on the court that he will before night demur to the indictments on the ground that they were based on illegal and insufficient evidence of the commission of a crime.

Judge O'Sullivan notified Stanchfield to serve copies of his pation on the district attorney today.

Collapse of Strike.

New York, July 2.—The strike of New York ice men is broken. Officials of the American Ice Company met a committee of the strikers today, and pointed out that they have enough strike breakers to man their wagons and sufficient police protection to insure deliveries. They promised to give the strikers their old places if they returned to work at once. The strike was not officially declared off, but two-thirds of the men gave up the struggle and are with their wagons again as usual. Except that a late start was made with deliveries conditions are almost normal. The company has given the strikers who still hold out until tonight to report for duty. It is believed few will refuse the offer, in view of the wholesale defections from their ranks.

The Striking Telegraphers.

Chicago, July 2.—The most menacing stage yet reached in the telegraphers' strike has developed in Chicago. Western Union officials flatly refuse to consider the reinstatement of Operator Wm. Main, who was discharged and ignored a committee which sought to intercede in his behalf. Subsequently preparations were actively begun today for a walk out in the Chicago offices.

San Francisco, July 2.—It is stated today that President Small, of the Telegraphers' Union, has mailed orders to operators in other cities to strike upon receipt of the instructions accompanying the letters.

New York, July 2.—The next strike of telegraphers will be in Chicago, according to the best information obtainable at union headquarters here.

Compromise.

New York, July 2.—A compromise was reached today between creditors of Daniel J. Sully, the former cotton king, and Edwin Hawley and Frank H. Ray, from whom the creditors sought to collect the full amount of Sully's debts on the ground that they were partners with him in certain transactions. By the terms of the agreement Hawley and Ray will pay $25,000 to the creditors' trustees in full settlement of all claims against them. The creditors asked judgment for $88,450.

Massacre.

Constantinople, July 2.—Terrible massacres of Armenians in the villages of Bitlis and Van have broken out in the last few days and the situation there is reported to be very serious. Hundreds of Armenians are reported to have been killed or seriously injured. Turkish soldiers are said to be taking an active part in the outrages, assisting the Kurds, who started the outbreaks.

Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." Two Men Killed.

New York, July 2.—Two workmen were crushed to death today and 20 injured by the fall of a roof in the Pennsylvania's East river tunnel. One hundred and fifty of their fellow laborers made a dash for the nearest point of exit, three quarters of a mile away, but were driven back by the engineer in charge and forced to take the bodies from under the fallen boulder.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Mr. LUCKETT'S CONDITION.

Raleigh F. Luckett, an inspector of the Adams Express Company, in Washington, is in a critical condition at the Emergency Hospital in that city, the result of an attempt to end his own life with a revolver.

Brooding over his separation from his wife is attributed as the cause of Luckett's rash act.

Luckett now lives, probably, because he is left handed. In the attempt, he became excited and confused, and in aiming the revolver at his heart permitted it to slip.

The bullet entered the right breast, penetrating between the right lung and the heart, and lodging in the delicate membranes of the spinal cord. When the bullet reached this vital spot the entire portion of his body below the waist became paralyzed.

The young man last night was in a precarious condition. The physicians say he will live. The X-ray will be used to locate the position of the bullet. An operation will be performed today When the bullet is removed the physicians say Luckett's recovery will be rapid.

Luckett however seems determined to die. The only person who up to last night had been permitted to see him was his father, C. E. Luckett.

"Pop, it's all over; it's over," Luckett said to the father who was at the bedside last night. The young man talked to his father in a rational manner, saying life had become miserable and he decided to bring it to an end.

Since separation from his wife, formerly Miss Gertrude Harlow, of this city, to whom he was married 5 years ago, Luckett has been depressed and worried. To his most intimate friends, however, he has not mentioned his troubles.

Mr. Luckett's wife and two children are now visiting relatives at Laurel, Md.

Mr. Luckett passed a bad night at the Emergency Hospital and this morning the physicians stated that he was sinking rapidly. They said his condition was so critical that no effort would be made to perform an operation.

Mrs. Gertrude Luckett, his wife, arrived at the hospital about noon, to be with her husband.

She was accompanied by her father Mr. M. B. Harlow of this city.

MISHAPS ON RAILWAY.

As was stated in the Gazette, the overhead wires of the Washington, Alexandria and Mount Vernon Railway a short distance north of Alexandria fell yesterday morning and trains were tied up for some time. Early in the afternoon the motor car of a north bound train left the rails on the big "fill" that has recently been made a short distance this side of Mount Vernon, and the trucks were buried deep in the soft earth. The train was filled with passengers, but no one was injured. A train was sent down to bring the passengers to this city, and it was late in the night before the derailed car was replaced upon the track. A drawhead on a south-bound train pulled out and left the trailer helpless near St Asaph about 5:30 o'clock yesterday evening. The motor car proceeded to Alexandria, and later the trailer with its passengers was pushed to this city by another train.

Jurymen Mysteriously Stricken.

Five of the jurors summoned to try Herman Billik for the murder of the Vrzil family in Chicago have been mysteriously stricken. Two were prostrated Friday and had to be relieved from duty. Yesterday a new sensation was created, when three more jurors fell victims to a puzzling malady that baffles the doctors.

Belief that Billik, hypnotist, voodoo doctor and fortune-teller, has cast his spell over these men who would have been called on to decide his fate, has grown among court attaches and those who have been attending the trial.

At the opening of court yesterday two accepted jurors rushed into the courtroom in a condition bordering on nervous hysteria and begged to be released. The third juror, Carl Patterson, of Evanston, was unable to talk when questioned by Judge Barnes.

"I feel dizzy," said Patterson after Judge Barnes had sharply questioned him. Then, when exhausted, he fell prone to the floor and lay at full length in front of Billik.

Billik, the inscrutable, stolid defendant, smiled grimly when Weise and Seehausen made application for discharge from jury service yesterday.

All the men who have been released are men of nervous temperament and are said to be easy subjects of hypnotic powers.

Constipation.

For constipation there is nothing quite so nice as Chamberlain's Stomach and Liver Tablets. They always produce a pleasant movement of the bowels without any disagreeable effect. Price, 25 cents. Samples free. For sale by W. F. Creighton & Co. and Gibson & Timberman.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book. Dr. Shoop, Racine, Wis. The Restorative sold by E. S. Leadbeater & Sons.

S. Lerdbeater & Son's drug store.
